NEW Natural Finish

Featuring 5810 Black Tempal™ in Natural Finish

The New Dark Collection

Inspired by the authentic characteristics of dark marble and the tactile beauty of natural industrial materials, the collection includes innovative new dark tones to create a world of comfort and warmth for your home.

5101 Empira Black™

Empira Black has a dark base composed of rich, deep black beautified by light natural veins. Inspired by the authentic characteristics of natural forms, Empira Black with its Polished finish endows the space with the sophistication of real marble, while Natural finish heightens its elegant feel without overwhelming its innate essence.

5810 Black Tempal™

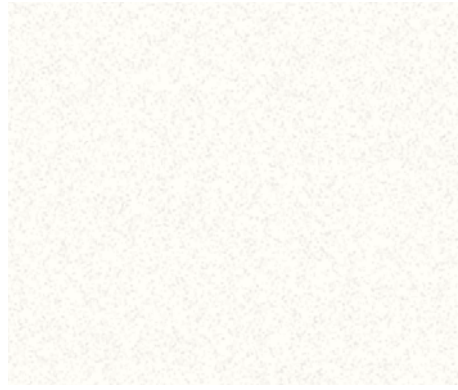

A captivating interpretation of industrial travertine. Soft mineral deposits create a marbled veil across the slab, in contrast to its black charcoal base. With the new Natural finish, this complex composition is layered and complex composition are layered, capturing these warm granular highlights just as in real stone.

4735 Oxidian™

Tarnished with an oxidised russet effect that is distributed unevenly, just like real rust. Oxidian has a dark grey base with true depth, thanks to the new Natural Finish, which presents a slightly textured grain that one can truly feel.

NEW 5114 Calacatta Maximus™ in Natural Finish

5151 Empira White™ in Polished Finish

4044 Airy Concrete™ in Rough Finish

Finishes

Polished

This elegant and reflective surface evokes luxury and modernity. Smooth to the touch, the Polished finish is durable and long lasting. With minimal care and maintenance, our Polished finish surfaces add value to any design with their timeless and contemporary feel.

Natural

This slightly textural finish adds warmth to the grain for a unique sensory feel whilst its satin sheen gently reflects light. Suited to contemporary and classic interior designs, our Natural finish combines the appeal of authentic texture with style and practicality.

Concrete

This sleek matte Concrete finish is a lightly textured finish inspired by the tactile nature of smooth concrete. It offers low light reflection that brings balance and a classic industrial presence to your design.

Rough

A rich, complex and technologically advanced finish that reflects the authentic patinas of industrial materials. The Rough finish offers a distinctively coarse surface yet remains smooth enough for effective cleaning.

Do Rough, Concrete and Natural finish designs require extra maintenance?

Caesarstone® Rough, Concrete and Natural finish designs carry the same stain and scratch resistance as our Polished surfaces, do not require sealing and are simple to clean. However, these finishes do not disguise marks and fingerprints as well as the polished designs, meaning more regular cleaning may be required. Visit www.caesarstone.sg for further information and video demonstration.

Caesarstone. Crafted For You.

“Combining the beauty & strength of quartz - One of nature’s strongest minerals”.

Caesarstone® lives in the heart of your home, combining the beauty and strength of quartz surfaces in your kitchen, bathroom and more.

Caesarstone® gives you total peace of mind that you’ve chosen not just the durability and quality of a Caesarstone® surface, but an inspired centrepiece for a lifetime of experiences.

Bring out the designer in you.

The Caesarstone® Difference

Your Renovation Partner.

We make a complex process easy with support, inspiration and a human touch. We help you with all the details so you can bring your vision to life. Start your journey at www.caesarstone.sg

Innovative Superior Designs.

Caesarstone® leads the way with the latest on-trend designs. Whether it’s a timeless classic or a breath-taking new design, Caesarstone® lives at the heart of your dream home.

Total peace of mind.

Caesarstone® produce the highest quality surfaces that are durable & easy to care & maintain with our range of cleaning products. We support you with a 10 year limited warranty and impeccable customer service support.

Colour Selection

Caesarstone® is made from natural quartz and therefore some variation in colour and aggregate may occur. The colours in this brochure are to the highest standards in printing, however, should only be used as an indication of actual product design. We always recommend making a final colour selection by viewing displays of larger panels in your nearest Caesarstone® Experience Centre or retail showrooms to appreciate the movement of the design over a large surface.
