ATOMIC COLOUR PERFECTION

The new Physical Vapour Deposition (PVD) Finish by Jaquar

STATE OF THE ART COLOUR TECHNOLOGY

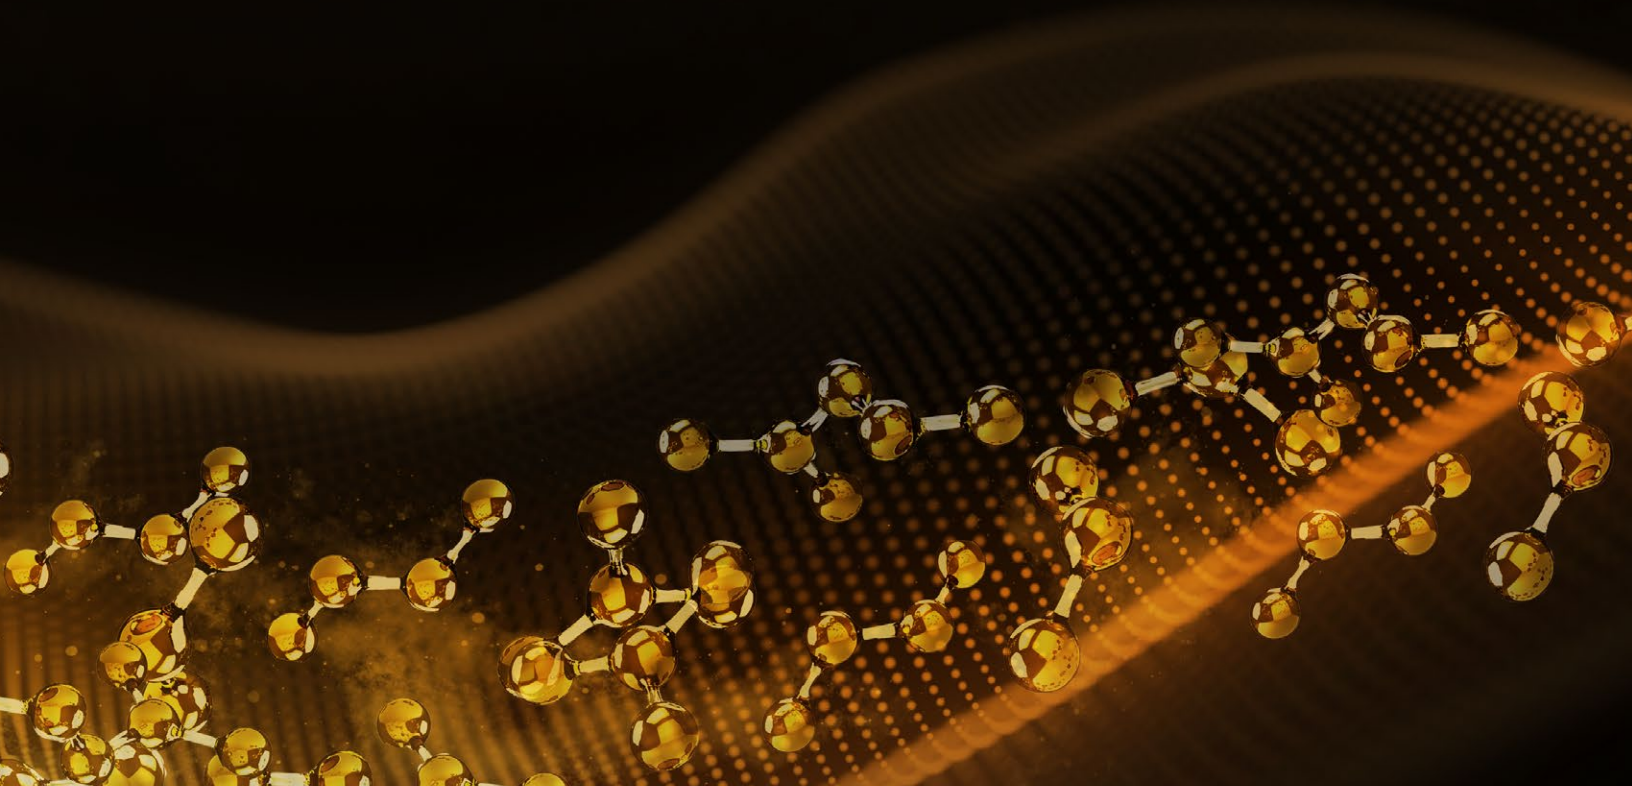
PVD or Physical Vapour Deposition is a state-of-the-art coating technology that delivers smooth, ultra-durable surface finishes that look and work like no other.

COLOUR PERFECTION AND PRECISION

Unlike other coating technologies that have been in use for metal surfaces, PVD or Physical Vapour Deposition, coats surfaces at an unimaginable, atomic level.

A technique called Magnetic Sputtering is used to release atoms from the coating material which then condense and bind to the product's surface in a perfectly uniform coating.

It's a technology so advanced that it requires vacuum chambers and specially-created rotating trays for every kind of product that is to be coated.



WHY PVD

TOUGHER SMOOTHER AND BETTER FOR THE ENVIRONMENT TOO.

Unlike conventional methods of colour-coating, PVD offers a multitude of benefits that make it a perfect technological upgrade that delivers advantages far into the future of the product.

SMOOTH, UNIFORM COATING

•

HIGH HARDNESS (HARDER THAN STEEL)

•

OUTSTANDING WEAR RESISTANCE

•

HIGH CORROSION RESISTANCE

•

HIGH PROCESS EFFICIENCY, FLEXIBILITY AND RELIABILITY

•

EXCELLENT QUALITY REPRODUCIBILITY

•

ECO-FRIENDLY PROCESS (ZERO CHEMICAL WASTAGE)

•

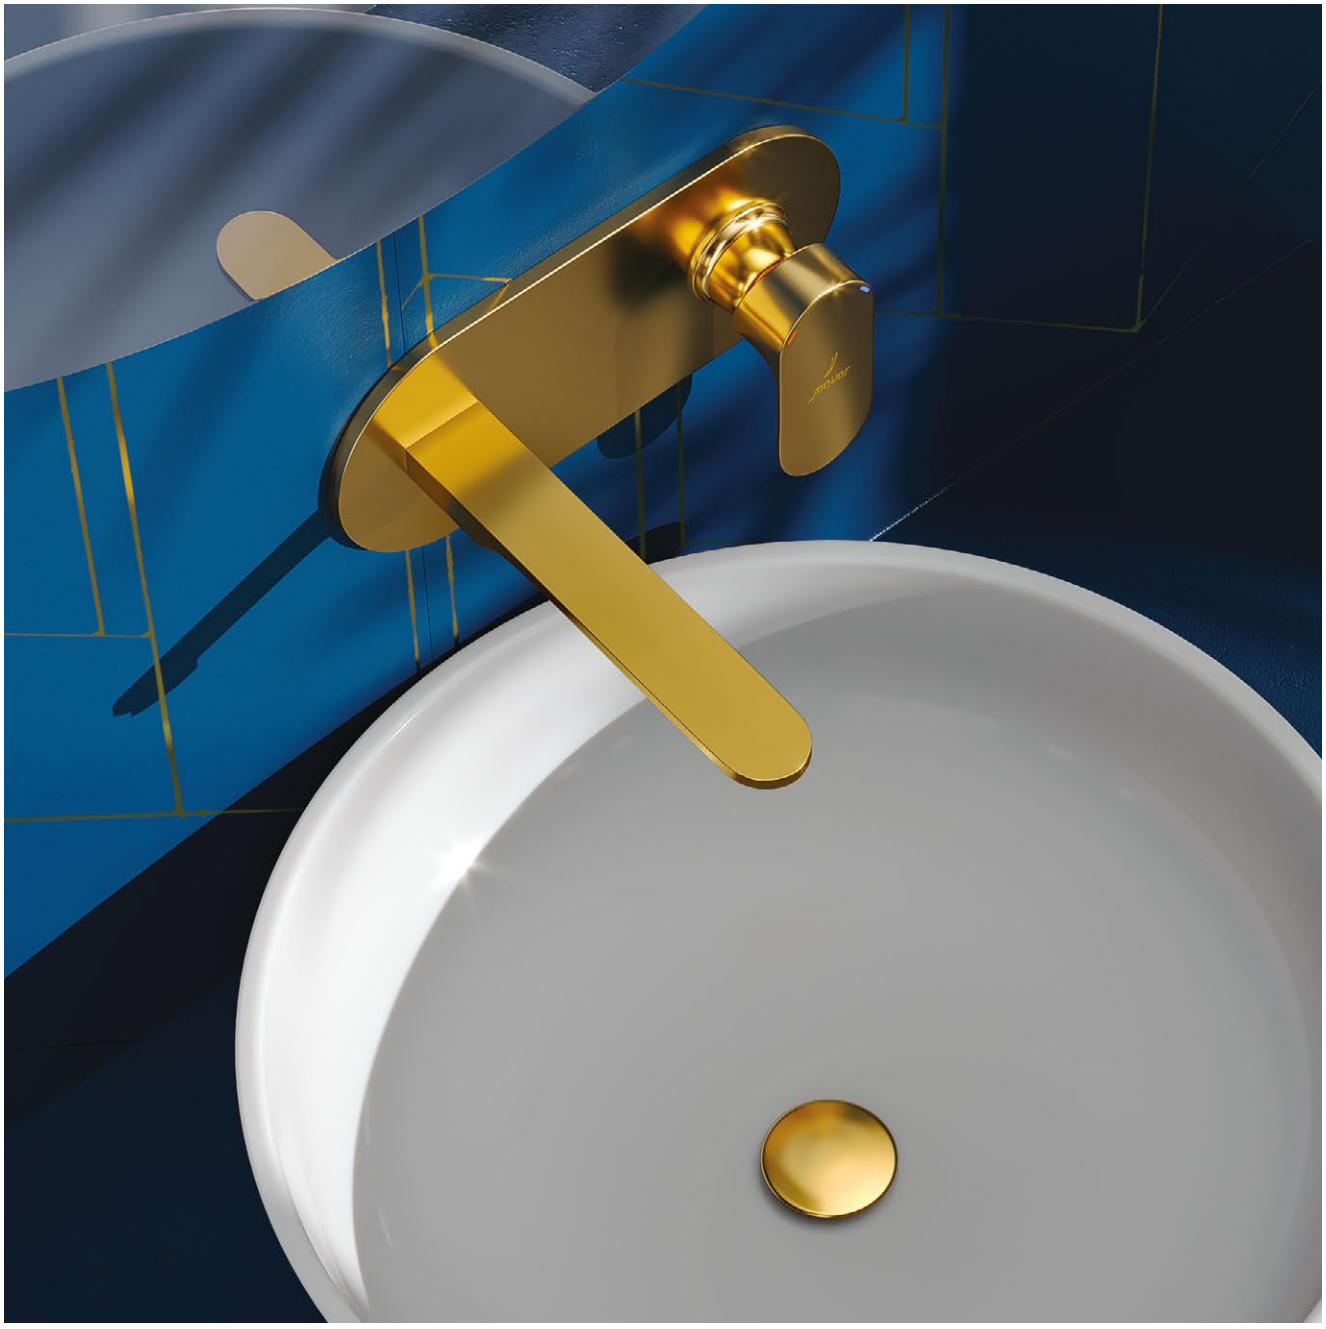
LOW TEMPERATURE PROCESS
(PRODUCT QUALITIES REMAIN UNAFFECTED)

THE STORY BEGINS WITH GOLD. ON 2 STUNNING MODELS.

Jaquar is showcasing its PVD-coated fixtures range with the colour that's always ranked above all else. But already there's more to the choice than a single, simple gold.
You could choose a celebratory Bright Gold that glistens and gleams and pulls the spotlight onto itself. Also stunning, in its own unique way, is the Matt Gold. A colour that imbibes the light and makes a statement by being distinguished and understated.
Colours that give our Kubix Prime, Opal Prime ranges even more power to lift the aesthetic appeal of any bathroom.

OPAL PRIME

The modern, minimalistic design of Opal Prime can inspire multiple possibilities, especially in a glamorous gold avatar! Seen here in a combination of night-sky blue walls with linear gold highlights, it helps achieve the perfect balance between function and form in bathroom design.



The modern, minimalistic design of Opal Prime can inspire multiple possibilities, especially in a glamorous gold avatar! Seen here in a combination of night-sky blue walls with linear gold highlights, it helps achieve the perfect balance between function and form in bathroom design.

KUBIX PRIME

Born with an industrial lineage and evolving into a contemporary silhouette, Kubix Prime's clean lines display its functional intent like few others do. When it is supported by the architecture of the space with complementary angular cues, it discovers a centre stage role for its coordinated range.

A star is born. When Kubix Prime is clad in gold, it seems to attract the spotlight like a magnet.

BRIGHT GOLD

You could choose a celebratory Bright Gold that glistens and gleams and pulls the spotlight onto itself.

MATT GOLD

Also stunning in its own unique way is the Matt Gold. A colour that imbibes the light quietly and makes a statement by being distinguished and understated, in a mysterious.
