Accessory 110 - 113

Over one hundred years of passion

Making something wonderful rarely happens overnight, and Franke has been pushing the boundaries for over 100 years. Founded in 1911, Franke was built on a foundation of precision engineering combined with traditional craftsmanship. Over 100 years later, those principles endure, while a focus on the changing needs and lifestyles of our customers has helped us become the world's largest manufacturer of kitchen sinks.

Swiss precision engineering

The Franke story began as a small sheet-metal business in Rorschach, Switzerland, established by Hermann Franke in 1911. Since then we've established efficient and economic manufacturing facilities all around the world.

Many things have changed in the past century, but what is always the same is a set of values, characterised by respect, trust and openness. The values of innovation, entrepreneurship, quality and stylish design were in the heart of Hermann Franke and continue to be at the heart of the business, as we enter a second century of smart and stunning design.

FRANKE HOME SOLUTIONS

Complete solutions for your kitchen

The kitchen is a place where we love to spend time. It has always been a space for coming together. This emotional connection to the kitchen is the inspiration behind Franke's decision to design this room as an intelligent system, combining all the appliances involved in food preparation: from the sink to the hood to the waste separation solutions. Franke offers integrated systems that lend both style and functionality to your kitchen. Our goal is for you to be able to enjoy cooking, eating

and simply spending time in a kitchen that is equipped with Franke products. Like all high-end manufacturers of kitchen products, Franke is driven by core values such as design, quality, functionality and discipline. The company boasts 100 years of experience and expertise, championing innovation in order to offer products that are always perfectly suited to your needs.

Be inspired by our innovative solutions for your kitchen!

Appliances

Ovens, microwaves, hobs, fridges and dishwashers.

Discover our new range of appliances: Ovens, microwaves, induction hobs, plate warmers and built-in coffee machines!

Food preparation area

Sinks, basins, taps, taps with water filtration technology, soap dispensers, waste management and kitchen accessories.

Hoods

A wide range of hoods designed to be integrated into ceilings, islands and cooktops, decorative versions, built-in and extractable models.

FRANKE HOME SOLUTIONS

The Collection

Research and continuous innovation. Authentic materials and colours. Harmonious shapes brimming with character. A range of new products created to improve life in the kitchen, including mixer taps, sinks, hoods, hobs and ovens. All of this is at the heart of Franke's collections. Mythos, for all those who love design and elegance. Maris, for a safe, cosy kitchen that is perfect for families. Smart, for a simple, functional and modern kitchen environment. As of today, cooking with Franke is set to become even more enjoyable!

Mythos

A passion for details

An elegant, timeless kitchen. A unique, unforgettable style. The Mythos collection never fails to impress, not only due to its refined design and the perfect combination of stainless steel and dark glass, but also thanks to its performance and the high quality it offers.

Maris

Family in the kitchen

Cooking together has never been this simple: the way the spaces are organised with Maris maximises the possibilities for sharing your culinary passion with your loved ones. All elements offer enhanced comfort and excellent durability: a space for the whole family.

Smart

Your kitchen, your way

Sharing an apartment with friends, or enjoying life as a young couple? It's a joy to spend time in the kitchen, particularly when it is such a perfect reflection of who you are. The Smart range satisfies each and every requirement in an original way with an expert blend of styles and materials, and integrates multifunctional components in a simple, intuitive manner.

Mythos

When cooking becomes art

A space which celebrates beauty in its purest form. Elegant lines, sophisticated materials and the very best performance. Mythos is all of this and more: the perfect synthesis of cutting-edge technology and design, marrying classic and contemporary style.

A collection for enthusiasts with exacting standards, it features pure, clean lines that embrace and enhance the robustness of the materials shaped by a design that expresses astonishing creativity.

Maris

A space for the whole family

Robust, durable materials. Each element is organised according to a highly functional approach. Maris is designed for sharing, and for spending time together as a family.

A free, open space which enables everyone to move around in total safety, united by the continuity of the surfaces in a kitchen system that can be configured in accordance with your wishes.

Smart

Simple, functional and modern

Intelligent, highly functional equipment. An optimal use of space. A fresh, modern design which enables different styles to be combined, with tasteful yet original results.

The Smart collection is designed for ease of use, and can be adapted to suit any environment. Each functional element contributes to the beautiful simplicity of the space, in perfect harmony with today's requirements.

“ We believe that sustainability means fairness to future generations”

Shaping our future

Preserving the environment – shaping the future: As a company conscious of our responsibilities, we think and act today in the interests of the world of tomorrow. We work hand in hand with our partners, customers and suppliers to create a liveable future where people can also thrive.

“We believe that sustainability means fairness to future generations” – this quote from Michael Pieper, owner of the Franke Group encapsulates our company ideals. We reconcile economics and ecology and make a proactive contribution towards sustainable development – with long-lasting products, recyclable materials and smart technologies. We use the global sustainable development goals and the United Nations Global Compact (UNGC) as a guide and framework on the path to a climate-neutral future.

Putting people at the heart of our sustainability

The foundation of our new sustainability strategy rests on the three pillars of the environment, employees and the company. When it comes to environment, we focus on the production and lifecycles of our products. As the market leader, creating reliable and innovative solutions with real added value is both a challenge and a source of motivation.

This exceptional quality enables customers to use our products for more than two decades – conserving resources in the process.

We also feel an immense responsibility towards our employees, of which there are approximately 8700 around the world. Words like appreciation and trust aren't just empty phrases to us, they're deeply embedded in our company's DNA.

We help people to stay healthy and to make their professional aspirations a reality. Franke is synonymous with diversity, equal opportunities, cohesion and a company culture where people want to give their best and contribute their own ideas.

Good for everyone!

Good for our partners and customers. Good for the planet. Good work. We believe that sustainability means planning ahead. We see environmental action as an opportunity and this attitude is also reflected in Franke's products.

Less plastic and better taste

No packaging, no waste, no distance travelled: Drinking tap water uses significantly fewer environmental resources than mineral or carbonated water. Plastic bottles have a particularly stark effect on the environment – around the world, over 1500 bottles end up in the sea every second. It doesn't have to be this way. With our Vital filter tap, you can transform tap water into delicious water to drink. In the smallest of spaces, the capsule filter combines activated carbon and a high-tech membrane to reliably remove bacteria, viruses, microplastic, rust, medication residues and hormones. Customers are therefore guaranteed clean drinking water which is equally good for their health and the environment.

Saving water has never been so easy

Another star in Franke's range of products is the Atlas Neo Sensor. This innovative technology allows you to switch the water flow off and back on again even when your hands are covered with soap – in a completely touch-free system. This saves around three litres of water every time you wash your hands and keeps the tap spotless. The sensor will switch off automatically after 30 seconds. Needless to say, you can still operate the tap manually.

Clean air for maximum energy efficiency

Our extractor hobs offer maximum energy efficiency. For example, the extremely powerful Mythos 2gether extractor hob is classed in the best possible energy efficiency rating A+++ thanks to its innovative and brushless motor.

Quality above all else

Visually appealing, functional in use, steel represents our kitchen ideas.

The sheer quality of Franke products can be seen and felt. We use AISI 304 18/10 steel, which is produced in Italy and Europe: a choice that reflects our dedication to quality, one of our core priorities over the 100-plus years of our history.

Strong and robust, Franke steel ensures that our products maintain their functionality over time.

Its extraordinary brilliance is captivating and striking, making it the defining feature of the living spaces in which it is installed.

Its superb technical features ensure that it is always in demand, and highly appreciated by professionals in the haute cuisine sector: furthermore, stainless steel is an extremely hygienic material, and is easy to clean and recyclable. Aesthetically pleasing and functional to use: stainless steel is at the heart of our kitchen concept.

Durable

The specific concentrations of nickel and chrome in AISI 304 18/10 steel render it particularly resistant to extreme temperatures. Its brilliance does not fade over time; on the contrary, its beauty and appeal only increase.

Functional

Steel is the material of choice for kitchen professionals, due to the fact that it is resistant, hygienic and safe. Its non-porous surface is extremely easy to clean.

Easy to maintain

Steel is easy to maintain; just a few simple daily steps ensure that it remains a joy to use over time. Skip to the next page for tips on how to take care of Franke steel.

Caring for Franke steel

While steel is environmentally friendly, 100% recyclable, durable, easy to clean and very hygienic, it is nonetheless easy to scratch. Below are a few guidelines for taking care of 18/10 stainless steel over time.

To keep stainless steel in good condition, it is a good idea to clean it daily using soap and water or a neutral detergent, wiping down the surface with a soft sponge or microfibre cloth.

Always thoroughly rinse and dry the sink after every use, particularly in hard water areas. When cleaning and drying, always ensure that you move in the direction of the satin finish.

If limescale stains appear, these can be cleaned using a simple solution of 1/4 white vinegar with 3/4 hot water, following the steps above.

We also recommend using detergents specifically designed for taking care of stainless steel; always read the instructions for use and follow the dosage indicated on the label.

Franke has developed its Kitchen Care range to meet all steel maintenance needs; these products are specifically developed for the daily care of sinks and all other steel elements.

Stainless Steel Sink

MYTHOS SINK

The joy of precision

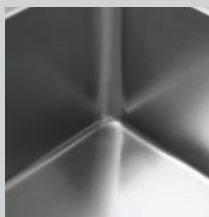

With our new sink range, everything runs smoothly. With flawless features and contemporary detail, these sinks will add a special touch to your kitchen area. If you are looking for a minimalist and sophisticated bowl, the new Mythos range will seamlessly fit your needs. THE JOY OF PRECISION Precise and elegant in style, this premium range will complement those with a flair for contemporary and minimalist design. With a tighter bowl radius, 6 mm rim and a flush waste cover, Mythos is sure to integrate seamlessly into your kitchen area and brings everything a modern cook requires: attention to detail and absolute elegance.

The perfect rim

The new Franke sinks are designed and manufactured with the highest precision. The unique 6 mm rim perfectly integrates the sink into the worktop.

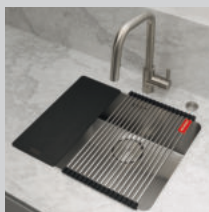

Perfectly rounded corners

The bowls' corner radius creates a smoother shape within the bowl which makes it less high-maintenance and easier to clean.

Seamless waste cover

The stylish cover sits flush over the waste and fits elegantly into the sink, making it much easier to clean.

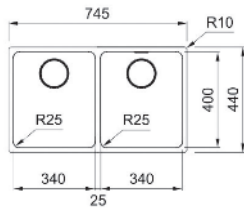

Accessories

The Mythos bowl makes cooking and food-preparation more exciting. Everything is perfectly organized. The accessories are beautifully crafted and simplify all the jobs in the kitchen.

A cluster of fresh yellow cherry tomatoes with green stems is placed on a dark grey, textured sink. Several water droplets are scattered on the sink's surface around the tomatoes. The background shows the curved lines of the sink and a light-colored countertop.

Fragranite Sink

SPECTACULARLY BIG

A bowl that satisfies all around

Maris Fragranite Bowl

Spacious, durable, hygienic.

The new Maris Fragranite Bowl meets all the requirements for modern kitchen use. It is made from Fragranite to last a lifetime, and the material is treated with Sanitized: silver ions that prevent germs, mould and bad smells. But above all, Maris is spectacularly big. With no drainer, washing baking trays, pots and pans has never been easier.

A match with your kitchen

The Maris Fragranite bowl is the ultimate improvement to your kitchen.

Our products offer modern looks, clever functions and plenty of space – they combine design and functionality. With a Maris bowl you have a product that simply fits and creates a lot of pleasure and convenience.

A perfectly finished bowl

Our bowls are beautifully designed minimalist objects that will blend into your kitchen and simply belong. With their extremely thin rim, they are among the most striking design bowls on the market. Moreover, the bowls are offered with a drain cover and hidden overflow.

Delightfully long-lasting

The bowl includes quartz, one of the hardest materials known to man, and is resistant to temperatures up to 180° C. It's also resilient to impact and thermal shock, and so scratch-resistant that even knives won't leave marks on the surface.

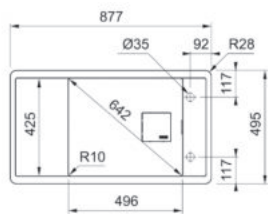

Amazingly hygienic

What would a bowl be if it wasn't easy to clean? Our bowls are simple to wash and particularly hygienic because they are enhanced with Sanitized, a material that contains silver ions that reduce the growth of bacteria and microbes by 99%.

PESCARA

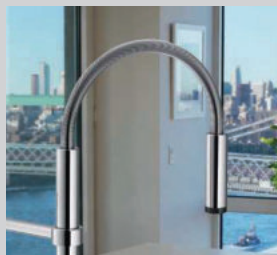

With a sleek, modern design, Pescara adds professional flair and maximum function to the home kitchen. It features a single-lever handle and pull-down sprayer that fits comfortably in your hand for effortless operation. Intuitive, ergonomic design allows easy toggling between spray and stream.

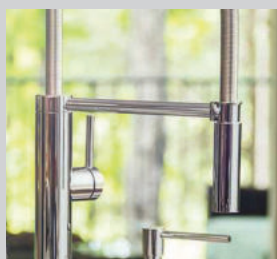

Dual function spray head

Easily toggle between spray and stream without the need to reduce water pressure between modes.

Durable coil spring hose

The coil spring hose provides great flexibility for complete reach of the entire sink.

Magnetic docking

An intuitive, quick release, magnetic dock holds the spray head securely in place when not in use.

Full Coverage Swivel

The 360 degree swivel spout generates a full range of motion, allowing you the flexibility to reach almost any area of your sink. The tall arch design offers exceptional space for cleaning or filling large pots and pans.

MYTHOS INDUCTION HOB

When cooking becomes art

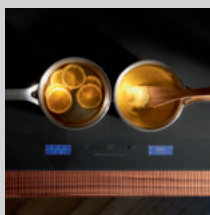

Delight yourself and your guests with a kitchen that looks timeless and stylish. Enjoy perfectly balanced design features set against dark glass surfaces. The Mythos range of appliances will also amaze you with their performance and quality. The look and the effectiveness of Mythos makes it an acclaimed classic.

Design and Installation

Superb result from the High Tech Design 3D effect, without frame, which allows it to be installed semi-flush or flush with the top.

Touch control display

The double LCD touch control display, together with the slider central, they help to manage the eight zones with a few touches a induction to have everything under control with great ease.

CookAssist

With CookAssist function, cooking with Mythos is a breeze. With the right setting on your hob, you can cook a steak to perfection and not worry about burning it. There is a range of functions, such as the fantastic slow cooking function. You can use this one to get your meat and fish perfectly tender and succulent, exactly the way you want it.

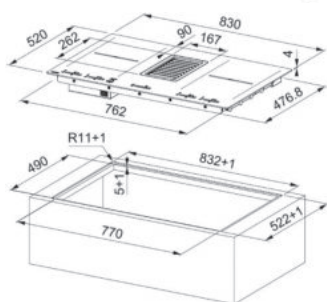

Flexible cooking

The large induction hob will astonish you with up to eight cooking zones. Big pots, small pans, whatever you want to heat up – with the FlexPro zone feature on your new hob, you can do it all at the same time. That's comfortable cooking.

Hood

MYTHOS 2GETHER

A wonderful cooking liaison

Mythos 2gether:

a classy product combining cooking and suction power

The hob that comes with a hidden hood. Two ingredients that work together seamlessly.

If you desire elegance, minimalism and functionality, the Mythos 2gether is the ideal solution for your kitchen.

It combines an advanced induction hob with a very powerful hood. The new hob-hood is a sophisticated product for design and tech lovers.

Automatic switch

Whenever the hob is in use, the hood automatically switches on and delivers the exact suction power needed (up to 1200 m³ / h int).

Special cover in cast-iron

the hood is highly durable and heat-resistant: hot pans can be safely placed on it without damaging the material.

Hob-hood integration

The very powerful hood is seamlessly integrated into the hob. Pots and pans can be moved freely on the surface of the hob and hood without having to lift them.

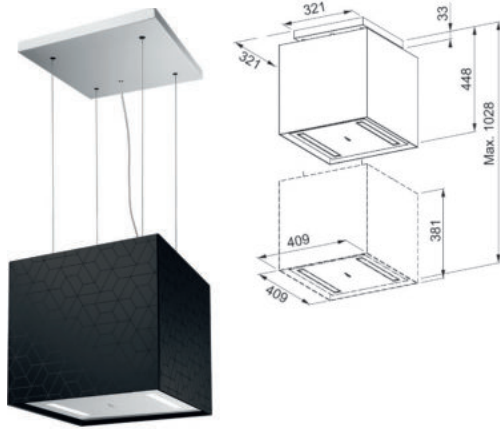

Useful space

Thanks to its small motor, Mythos 2gether allows a lot of storage space in the cabinet underneath.

Oven

THE NEW MYTHOS OVEN

Only the best for your kitchen

When friends and family come over, we spend most of the time in the kitchen – talking, laughing, and cooking together. Franke has found a way to make food preparation easier and has developed new, elaborate ovens. Now every part of cooking will be even more enjoyable.

Microwave-combi oven, and Oven

Microwave ovens have been designed to be combined with Franke built-in multifunction ovens. Perfect aesthetics and maximum customization both for the combination in gallery configuration and for column alignment.

Wider muffle

Up to 73 liters for the Mythos ovens and 71 liters for Maris and Smart. The large cavity allows you to cook several at the same time dishes while maintaining the flavor of each one unchanged and ensuring optimal cooking.

Keep it gentle

The door on your new oven closes gently, softly, and silently. The Smooth2Close feature brings a sense of serenity and charm into the family kitchen and makes the whole atmosphere more friendly.

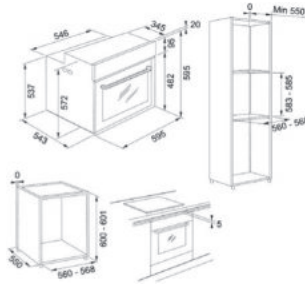

Clean as a whistle

Now you can enjoy your oven even more. With the pyrolytic cleaning function, it will clean itself and transform all leftovers into ashes that can easily be wiped away.

A detailed view of the interior of a dishwasher. The top rack is filled with various pieces of silverware, including knives, forks, and spoons, neatly arranged. Below it, the middle rack holds several white ceramic plates and a blue glass. The bottom rack is filled with white ceramic plates, some standing upright. The dishwasher's interior is made of stainless steel, and the racks are also made of stainless steel. The overall appearance is clean and organized.

Dishwasher

THE NEW DISHWASHER

Host more guests

Don't worry about the dishes. With one of the most efficient, Franke Built-In Dishwashers which maximize use of internal space with a cutlery basket and sliding tray. All dishwashers come with a half-load option reducing the use of water and energy when they are not full. Most models even have dirt detectors measuring the amount of dirt that has to be removed and thus adjusting the use of power and water quantity and temperature. You can even wash up your dishes while sleeping. The Franke Built-In Dishwashers are super-silent. Choose yours.

3rd basket cutlery tray

The dishwasher has a greater optimization distribution of water, a better cleaning of the cutlery and offers a large internal space. This ensures maximum flexibility in the positioning of all cutlery and long utensils.

Smart washing

Automatic Program is ideal for normally soiled dishes with dried food residues. The automatic function senses the level of soiling on the dishes and adjusts the program accordingly.

Flexible program

Versatile offer to meet different needs. Franke dishwasher has up to 14 place settings and numerous washing program, becoming the ideal solution for every need.

Long panel

This feature is in line with the trends and evolutions of contemporary style. The long panel dishwasher is designed to fit into kitchens with a lowered plinth. With the innovative sliding hinges, product installation is very simple and allows maximum flexibility in adjustment height.

Waste Disposer

WASTE DISPOSER

Keep the kitchen hygienic

Designed to liquefy organic waste so it can be harmlessly flushed into the sewer, returning biodegradable materials back to the earth, Waste Disposers are discreet, easy to install and energy and water efficient. Equipped with an antimicrobial agent, Bio Shield®, that will reduce odor causing bacteria, and the Silver Guard®* feature that offers a magnetic rim to prevent metal objects from falling into the disposer.

*On selected models

Silver Guard®

In a perfect world, only food waste falls into the disposer, but we know this is not every day life. Sometimes things fall in that shouldn't. So we've added Silver Guard - a magnetic rim that keeps metal objects from falling into the disposer.*

Powerful, Efficient Motor

Full torque at initial revolution uses less water and electricity and gets the job done quickly.

Hygienic Kitchen

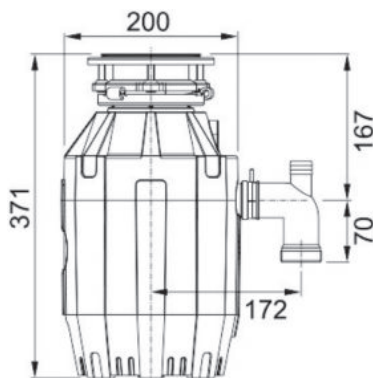

Our disposers have Bio Shield® antimicrobial agents molded into the internal components which inhibits the growth of bacteria and reduces odors, so you can rest easy knowing your kitchen will smell as good as it looks.

Easy to Install

Three bolt mounting system for a fast easy installation.

MAKE IT WONDERFUL

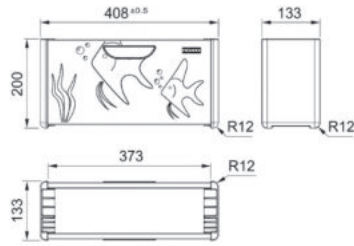

e 200 ml / 7.04 fl.oz

A close-up photograph of a kitchen countertop. The countertop is made of a dark wood with a vertical grain pattern. In the foreground, a stainless steel sink is partially visible. To the right of the sink, there are several lemons with green leaves. In the background, a black mortar and pestle sits on a dark tray, and a small black bowl containing white salt is also on a tray. The word "Accessory" is written in a bold, black, sans-serif font on a white rectangular background that is semi-transparent and positioned over the middle of the image.
