CONCRETE SURFACE

CONCRETE SURFACE

Being one of the most - widely used construction materials in the world, concrete products has been liked and applied in high-end hotels, public spaces by many designers, architects for its rustic, minimalist and industrial nature.

Our aim is to bring the most eco-friendly, the most natural and the superior quality concrete products for people to create their bathrooms with unique, rustic, smooth and modern aesthetics that will last a long time.

Our concrete products are designed, manufactured, and tested above the highest standards in design, quality, durability, and safety.

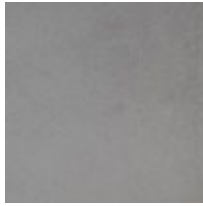

Our concrete products are made of pure high density concrete materials, quartz, fiber and additives. No fillers, no resin, so it is 100% recyclable.

Meanwhile, the surface sealer we use is able to blend into the material so it provides a longer protection than nano surface coating.

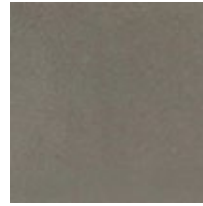

Plus, our production technique enables us to make our concrete products without any air pockets that is usually seen on concrete products.

All above factors result in strong products that are lighter in weight, and have superior shock, chip, and stain resistance than standard products made of Portland concrete mixes.

SIMPLICITY is the key in **TRUSOL** design. We minus the details that can over exaggerate. We were concerned about the use of the bathtub and the basin. The proportion and the slope of the wash basin to make them well maintained. The shape and form of the bathtub that suits the ergonomics of each individual. The smooth surface and endurance. All these details make us different and represent us as a character of '**LESS IS MORE**'.

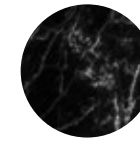

ความเรียบง่ายเป็นหนึ่งในหัวใจหลักในดีไซน์ของ TRUSOL การตัดทอนรูปทรงรายละเอียดต่างๆ ที่ไม่จำเป็นออกไป แล้วคำนึงถึงประโยชน์ใช้สอยที่สำคัญ สัดส่วนที่พอดีกับการใช้งาน ความโค้งมนของอ่างที่พอดีกับศีรษะ ความเรียบง่ายที่เอื้อต่อการใช้งาน วัสดุที่มีความทนทานให้ผิวสัมผัสเรียบเนียนนุ่มนวล ความพิถีพิถันในรายละเอียดเหล่านี้ทำให้ชิ้นงานของ TRUSOL มีความโดดเด่นและแสดงถึงตัวตนของ TRUSOL ที่ถ่ายทอดความ '**LESS IS MORE**' ออกมาได้อย่างชัดเจน
